OLD MUTUAL

## Masisizane Catalogue

Masisizane strives to contribute measurably to poverty alleviation and job creation in the country. We achieve this through financing enterprise development, encouraging entrepreneurship and facilitating skills capacity building, thereby contributing to the sustainability of micro, small and medium-sized businesses and a more caring society.

One of the areas of assisting small businesses towards sustainability is to leverage networks, expertise and knowledge resources and in this way facilitate market access.

Businesses listed in this catalogue are enterprises supported by Masisizane, whether financially or non-financially, and by purchasing from them, you will make a significant difference and contribute to a positive social impact in South Africa.

Sithabe Beaded 'Circle of Unending Love' (CUL)

Sithabe Beaded 'CUL' Mirrors

Sithabe Beaded 'CUL' Picture Frames

## About Us

Sithabe African Crafts is a company formed by two African women drawn together by the love of South African crafts and cultural products and a passion to promote and market these products.

'Sithabe' in Nguni ` means ` we should be glad'. In South Africa we have been blessed with an abundance of skills and creativity and we see this as our opportunity to recognize and celebrate our rich and diverse cultural heritage.

Sithabe works with rural suppliers to develop and produce designs that are innovative, authentic as well as functional.

## Our Products

Our products are inspired by South African culture and traditions. They focus mainly on the beadwork of the Nguni group, and are sourced from women in the rural areas of Kwa- Ndebele, KwaZulu-Natal, Mpumalanga, the Eastern Cape and Western Cape. They include jewellery, home and office accessories and decor, personal and corporate gifts.

## Our Philosophy

Sithabe African Crafts was established with the aim of promoting and marketing South African crafts locally and internationally while creating sustainable incomes for our crafters, who are mainly rural women.

Sithabe African Crafts is creating jobs directly and indirectly for many talented South Africans. We see what we do as our contribution to the country's current development and economic needs.

## Business Strategy for the Etafeni Income Generation Programmes (Etafeni Craft Works)

### Vision

To provide HIV-positive mothers and caregivers with skills, a sense of self-worth and an opportunity to earn an income which enables them to care for their children

### Mission

- To keep HIV+ mothers alive, healthy and happy so they can parent their children well
- To teach skills and empower these women economically so they can provide for their families
- To offer a professional service, to both international and local markets for our products, that helps make the programme financially sustainable and offers a social return on investment to our clients

### Objective

- To have an income generation programme that is self sustainable through the sale of its products and the services and to become known for reliability and quality

### Strategy

- To achieve the objectives, Etafeni Craft Works will focus on the following:
  - Product development
  - Production systems
  - Marketing products
  - Web-based sales
  - Exhibitions
- To identify the markets for the specific "feature service" of each centre's IGP and then to create a marketing and sales strategy that is relevant for each target market
- To keep production of 3 main product ranges (generated by all groups) consistent, ensuring stock availability at all times

### Tactic or Value-add

- All products are made by HIV+ women as a part of a holistic care programme.
- Each centre's IGP has its own value-add depending on the skill set in each group:
  - Nyanga offers tailor made designs and products to suit clients' needs
  - Vrygrond offers a low cost clothing range and has capacity to produce high volume, consistently
