

A ballot process is underway to amalgamate the fund with the Old Mutual Equity Fund on 31 May 2019. Any new client flows, including new client switches into the fund, will no longer be processed. However, investment flows from existing investors, including contracted debit orders, will continue irrespective of the capping of the fund. There will be no restrictions on repurchases.

FUND INFORMATION

RISK PROFILE

RECOMMENDED MINIMUM INVESTMENT TERM

FUND OBJECTIVE

The fund aims to offer superior returns over the medium to longer term by targeting the shares of growth-style companies.

WHO IS THIS FUND FOR?

This fund is suitable for investors seeking capital growth over the longer term. The investor can tolerate equity volatility.

INVESTMENT MANDATE

The fund invests primarily in listed "growth-style" companies showing above average growth potential, an entrepreneurial attitude and the potential to increase market share. These are companies whose future earnings growth potential has not yet been fully discounted. Up to 30% of the portfolio may be diversified into value-type shares. The fund may gain exposure to offshore assets up to a maximum of 30% of its portfolio (with an additional 10% for African ex-SA investments). Derivatives may be used for efficient portfolio management purposes.

REGULATION 28 COMPLIANCE

The fund aims to achieve long-term inflation-beating growth, and therefore may hold a higher allocation to equities than what is allowed in terms of Regulation 28 of the Pension Funds Act. This fund is therefore not Regulation 28 compliant.

BENCHMARK*: 87.5% ASISA SA-Equity-General category & 12.5% MSCI World Index

* Please note: The benchmark changed to this composite benchmark of 87.5% ASISA SA-Equity-General category & 12.5% MSCI World Index effective 1 July 2017.

rand-hedge shares, this fund has just under 20% invested in the Old Mutual Global Equity Fund.

In the quarterly commentary to the end of December 2018, we reported on the weakness in the British American Tobacco (BAT) share price. We suggested that the weakness was overdone and that we were happy to maintain our position in that share. We are delighted to report that the share increased by 27.4% in the first quarter of 2019, rebounding very strongly from the low it reached in January 2019 of 42418 cents per share (cps) to a quarter-end price of 59787cps.

generally reporting particular difficulty in passing on rising input costs (for instance, a higher fuel price), while demand remains under pressure – this, of course, means that companies' operating margins are under pressure and many have announced restructuring plans.

We believe that this fund gives investors a good balance of exposure to a diversified basket of global stock markets, shares and currencies. We continue to actively seek investment opportunities in the local and global markets.

Source: Old Mutual Investment Group as at 31/03/2019

Resources shares had a particularly good quarter, with the FTSE/JSE Resources Index (J258) returning 15.85%. This was partly driven by increasing commodity prices, particularly iron ore (+23.8%) and rhodium (+33.3%).

SA Inc. shares (those companies generating the majority of their earnings locally) continued to weaken. This comes off the back of poor results released by companies in the first quarter of 2019. In addition to poor results, companies are

FUND COMMENTARY as at 31/03/2019

The local market got off to a good start in 2019, with the FTSE/JSE SWIX All Share Index increasing by 5.2% over the first quarter (Q1). The MSCI World Index increased by 11.9% in US dollar terms in Q1 of 2019, rebounding strongly from a particularly weak last three months of 2018. The fund's mandate does allow offshore investment, which provided support to performance relative to peers over the quarter. In addition to its exposure to locally listed

OTHER INVESTMENT CONSIDERATIONS

MINIMUM INVESTMENTS:

- Monthly: R500
- Lump sum: R10 000
- Ad hoc: R500

INITIAL CHARGES (Incl. VAT):

There is no initial administration charge for investment transactions of R500 and above. Initial adviser fee will be between 0% and 3.45%. Investment transactions below the R500 fund minimum incur a 2.30% administration charge.

ONGOING

	Class A	Class R
Annual service fees (excl. VAT)	1.35%	1.00%

The fee is accrued daily and paid to the management company on a monthly basis. Other charges incurred by the fund, and deducted from its portfolio, are included in the TER. A portion of Old Mutual Unit Trusts' annual service fees may be paid to administration platforms.

TAX REFERENCE NUMBER: 9000/056/60/7

ISIN CODES:	Class A	ZAE000097465
	Class R	ZAE000020715

Total Expenses (Incl. Annual Service Fee) (31/12/2018)	36 Months		12 Months	
	Class A	Class R	Class A	Class R
Total Expense Ratio (TER) Incl. VAT	1.53%	1.29%	1.78%	1.38%
Performance Fee (included in TER)	0.07%	-	-	-
Transaction Cost (TC)	0.27%	0.27%	0.17%	0.17%
Total Investment Charge	1.80%	1.56%	1.95%	1.55%

Please note the annual service fees changed with effect from 1 January 2017 from performance based fees to flat fees. Historical performance fees were charged and will reflect in the fund's TER for 3 years from the date of service fee change. Historical performance fees were accrued daily and paid to the management company on a monthly basis (details on website). TER is a historic measure of the impact the deduction of management and operating costs has on a fund's value. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER, which includes the annual service fee, may not necessarily be an accurate indication of future TERs. Transaction Cost (TC) is a necessary cost in administering the fund and impacts fund returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of fund, the investment decisions of the investment manager and the TER.

Funds are also available via Old Mutual Wealth and MAX Investments.

We aim to treat our clients fairly by giving you the information you need in as simple a way as possible, to enable you to make informed decisions about your investments.

- We believe in the value of sound advice and so recommend that you consult a financial planner before buying or selling unit trusts. You may, however, buy and sell without the help of a financial planner. If you do use a planner, we remind you that they are entitled to certain negotiable planner fees or commissions.
- You should ideally see unit trusts as a medium- to long-term investment. The fluctuations of particular investment strategies affect how a fund performs. Your fund value may go up or down. Therefore, we cannot guarantee the investment capital or return of your investment. How a fund has performed in the past does not necessarily indicate how it will perform in the future.
- The fund fees and costs that we charge for managing your investment are disclosed in this Minimum Disclosure Document (MDD) and in the table of fees and charges, both of which are available on our public website or from our contact centre.
- Additional information of the proposed investment, including brochures, application forms and annual or quarterly reports, can be obtained, free of charge, from Old Mutual Unit Trust Managers (RF) (Pty) Ltd, from our public website at www.omut.co.za or our contact centre on 0860 234 234.
- Our cut-off time for client instructions (e.g. buying and selling) is at 15:00 each working day for all our funds, except the Money Market Funds, the price of which is set at 13:00. These are also the times we value our funds to determine the daily ruling price (other than at month-end when we value the Old Mutual Index Funds and Old Mutual Multi-Managers Fund of Funds range at 17:00 close). Daily prices are available on the public website and in the media.
- Unit trusts are traded at ruling prices, may borrow to fund client disinvestments and may engage in scrip lending. The daily ruling price is based on the current market value of the fund's assets plus income minus expenses (NAV of the portfolio) divided by the number of units on issue.
- This fund holds assets in foreign countries and therefore it may have risks regarding liquidity, the repatriation of funds, political and macroeconomic situations, foreign exchange, tax, settlement, and the availability of information.
- The Net Asset Value to Net Asset Value figures are used for the performance calculations. The performance quoted is for a lump sum investment. The performance calculation includes income distributions prior to the deduction of taxes and distributions are reinvested on the ex-dividend date. Performances may differ as a result of actual initial fees, the actual investment date, the date of reinvestment and dividend withholding tax. Annualised returns are the weighted average compound growth rates over the performance period measured. Performances are in ZAR and as at 31 March 2019.
