FUND OBJECTIVE

The fund aims to remain fully invested at all times to generate sustainable pre-tax income whilst growing the original capital invested.

WHO IS THIS FUND FOR?

This fund is suitable for investors seeking exposure to the property market without the potential difficulties and capital outlay of direct property investments. The investor can accept the volatility of investing in the property sector.

INVESTMENT MANDATE

The fund invests in a selection of listed South African commercial and industrial property shares. Income is derived from property shares that offer a secure and an escalating income stream. Capital growth comes from quality shares that show potential for an upward share price movement.

REGULATION 28 COMPLIANCE

The fund aims to offer exposure to a specific asset class, and may hold a higher allocation to equities and a greater exposure to a single equity than what is allowed in terms of Regulation 28 of the Pension Funds Act. This fund is therefore not Regulation 28 compliant.

BENCHMARK*: FTSE/JSE All Property Index

* Please note: The benchmark changed to the FTSE/JSE All Property Index (ALPI) with effect from 1 March 2019.

OTHER INVESTMENT CONSIDERATIONS

MINIMUM INVESTMENTS:
- Monthly: R500
- Lump sum: R10 000
- Ad hoc: R500

INITIAL CHARGES (Incl. VAT)*:
- Lump sum: R10 000
- Monthly: R500
- Ad hoc: R500

There is no initial administration charge for investment transactions of R500 and above. Initial adviser fee will be between 0% and 3.45%. Investment transactions below the R500 fund minimum incur a 2.30% administration charge.

Over the past 12 months, the SAPY's total return has been -5.7%, compared to the All Share Index's 5% and the All Bond Index's 3.5%. Over this period, the fund's performance after fees was equivalent to the SAPY benchmark. The benchmark was changed during the quarter to the FTSE/JSE All Property Index, a far superior benchmark.

Good domestic stock-picking was hurt by the performance of the UK majors. The fund will continue to hold meaningful positions in a diversified selection of property shares we believe offer the most long-term value.

At the beginning of April 2019, the FTSE/JSE All Property Index, with material offshore exposure, offered a high 8.9% forward dividend yield, almost equivalent to the 9.1% on the SA 10-year bond.

Near-term aggregate weighted distribution growth should be positive, but below inflation. Some companies will be negative outliers. The sector offers an attractive yield, but little short-term growth. Conditions remain difficult with disappointing GDP growth, cost increases and rising interest rates. Over-rentals on renewal in some pockets (especially in offices, which are also facing with significant potential new supply). Malls are facing a tougher environment, a key concern. There is too much retail space in some nodes, sales are weak, trading density is flat and tenants’ profitability is under pressure. An improvement in economic sentiment is required. Bond yields are the key short-term driver of capital value volatility. Increased foreign exposure continues to change the make-up and risk factors of the fund.

We aim to treat our clients fairly by giving you the information you need in as simple a way as possible, to enable you to make informed decisions about your investments.

- We believe in the value of sound advice and so recommend that you consult a financial planner before buying or selling unit trusts. You may, however, buy and sell without the help of a financial planner. If you do use a planner, we remind you that they are entitled to certain negotiable planner fees or commissions.
- You should ideally see unit trusts as a medium to long-term investment. The fluctuations of particular investment strategies affect how a fund performs. Your fund value may go up or down. Therefore, we cannot guarantee the investment capital or return of your investment. How a fund has performed in the past does not necessarily indicate how it will perform in the future.
- The fund fees and costs that we charge for managing your investment are disclosed in this Minimum Disclosure Document (MDD) and in the table of fees and charges, both of which are available on our public website or from our contact centre.
- Additional information of the proposed investment, including brochures, application forms and annual or quarterly reports, can be obtained, free of charge, from Old Mutual Unit Trust Managers (Pty) (PTY) Ltd, our public website at www.oldmut.co.za or our contact centre on 0860 234 234.
- Our cut-off time for client instructions (e.g. buying and selling) is at 15:00 each working day for all our funds, except the Money Market Funds, the price of which is set at 13:00. These are also the times we value our funds to determine the daily ruling price (other than at month-end when we value the Old Mutual Index Funds and Old Mutual Multi-Manager Funds of Funds range at 17:00 close). Daily prices are available on the public website and in the media.
- Unit trusts are traded at ruling prices, may borrow to fund client disinvestments and may engage in scrip lending. The daily ruling price is based on the current market value of the fund’s assets plus income minus expenses (NAV of the portfolio) divided by the number of units on issue.
- Specialist equity funds may hold a greater risk as exposure limits to a single security may be higher.
- The Net Asset Value to Net Asset Value figures are used for the performance calculations. The performance quoted is for a lump sum investment. The performance calculation includes income distributions prior to the deduction of taxes and distributions are reinvested on the ex-dividend date. Performance may differ as a result of actual initial fees, the actual investment date, the date of reinvestment and dividend withholding tax. Annualised returns are the weighted average compound growth rates over the performance period measured. Performance are in ZAR and as at 31 March 2019.
