

OLD MUTUAL ESG EQUITY FUND

LAUNCH EDITION

FUND INFORMATION

RISK PROFILE

RECOMMENDED MINIMUM INVESTMENT TERM

FUND OBJECTIVE

The fund aims to achieve long-term capital growth by primarily gaining exposure to companies with a superior ESG score relative to their peers. The fund will target a lower carbon footprint and a higher ESG profile relative to its benchmark.

WHO IS THIS FUND FOR?

The fund suits investors with a longer term horizon who primarily seek exposure to a South African General Equity Fund with a high Environmental, Social and Governance (ESG) focus.

INVESTMENT MANDATE

The fund invests in instruments included in the FTSE/JSE Capped Shareholder Weighted All Share Index. The fund primarily gains exposure to equity securities with a superior Environmental, Social and Governance (ESG) score, targeting a significantly lower carbon footprint and a higher ESG profile relative to the benchmark.

REGULATION 28 COMPLIANCE

The fund aims to achieve long-term inflation-beating growth, and therefore may hold a higher allocation to equities than what is allowed in terms of Regulation 28 of the Pension Funds Act. This fund is therefore not Regulation 28 compliant.

ONGOING

	Class A	Class B1
Annual service fees (excl. VAT)	0.90%	0.65%

* Please note: The Class B1 Fund is available through investment platforms such as Old Mutual Wealth.

This fee is accrued daily and paid to the management company on a monthly basis. Other charges incurred by the fund, and deducted from its portfolio, include audit, custodian and trustee charges and service fees of collective investment schemes in which the fund holds interests. These are included in the TER.

Total Expenses (Incl. Annual Service Fee) estimated	Class A	Class B1
Total Expense Ratio (TER) Incl. VAT	1.07%	0.78%
Transaction Cost (TC)	0.11%	0.11%
Total Investment Charge	1.18%	0.89%

Please note: The TERs are estimated. They do not have a full history of information and are negatively impacted by fixed costs at the inception of the fund. TER is a historic measure and clients are expected to experience a significantly lower fee going forward.

TER is a historic measure of the impact the deduction of management and operating costs has on a fund's value. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER, which includes the annual service fee, may not necessarily be an accurate indication of future TERs. Transaction Cost (TC) is a necessary cost in administering the fund and impacts fund returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of fund, the investment decisions of the investment manager and the TER. The TER and TC cannot be determined accurately for the funds that are less than one year old. Calculations are based on actual data where possible and best estimates where actual data is not available.

Funds are also available via Old Mutual Wealth and MAX Investments.

We aim to treat our clients fairly by giving you the information you need in as simple a way as possible, to enable you to make informed decisions about your investments.

- We believe in the value of sound advice and so recommend that you consult a financial planner before buying or selling unit trusts. You may, however, buy and sell without the help of a financial planner. If you do use a planner, we remind you that they are entitled to certain negotiable planner fees or commissions.
- You should ideally see unit trusts as a medium- to long-term investment. The fluctuations of particular investment strategies affect how a fund performs. Your fund value may go up or down. Therefore, we cannot guarantee the investment capital or return of your investment. How a fund has performed in the past does not necessarily indicate how it will perform in the future.
- The fund fees and costs that we charge for managing your investment are disclosed in this Minimum Disclosure Document (MDD) and in the table of fees and charges, both of which are available on our public website or from our contact centre.
- Additional information of the proposed investment, including brochures, application forms and annual or quarterly reports, can be obtained, free of charge, from Old Mutual Unit Trust Managers (RF) (Pty) Ltd, from our public website at www.oldmutualinvest.com or our contact centre on 0860 234 234.
- Our cut-off time for client instructions (e.g. buying and selling) is at 15:00 each working day for all our funds, except the Money Market Funds, the price of which is set at 13:00. These are also the times we value our funds to determine the daily ruling price (other than at month-end when we value the Old Mutual Index Funds and Old Mutual Multi-Managers Fund of Funds range at 17:00 close). Daily prices are available on the public website and in the media.
- Unit trusts are traded at ruling prices, may borrow to fund client disinvestments and may engage in scrip lending. The daily ruling price is based on the current market value of the fund's assets plus income minus expenses (NAV of the portfolio) divided by the number of units on issue.
- This fund holds assets in foreign countries and therefore it may have risks regarding liquidity, the repatriation of funds, political and macroeconomic situations, foreign exchange, tax, settlement, and the availability of information.
- The Net Asset Value to Net Asset Value figures are used for the performance calculations. The performance quoted is for a lump sum investment. The performance calculation includes income distributions prior to the deduction of taxes and distributions are reinvested on the ex-dividend date. Performances may differ as a result of actual initial fees, the actual investment date, the date of reinvestment and dividend withholding tax. Annualised returns are the weighted average compound growth rates over the performance period measured. Sources: Morningstar and Old Mutual Investment Group (FSP no. 604).
