### PRODUCT OVERVIEW

CoreGrowth is one of Old Mutual's Smoothed Bonus Portfolios. These are a range of products that target returns above inflation over the long-term (in excess of ten years) while providing protection against the volatility associated with market-linked products. CoreGrowth allows clients to choose the level of protection that suits them, offering a 90% and 100% guarantee option. Capital and bonuses will be guaranteed at the chosen level.

### TARGET RETURN

For the underlying portfolio

#### Gross Target Return

CoreGrowth CPI + 3.80% to 5.80% p.a.

The portfolio's Gross Target Return is over the long term and is gross of capital charges and investment management fees.

#### For each guarantee option

Bonuses are applied to investments net of capital charges. As such, we arrive at the Net-of-Capital Charge Target Return for each guarantee option by deducting the Capital Charge for each option from the underlying portfolio's Gross Target Return.

| Guarantee option | Capital Charge | Net-of-Capital Charge Target Return |
|------------------|----------------|-------------------------------------|
| CoreGrowth 90    | 0.80%          | CPI + 3.0% to 5.0% p.a.             |
| CoreGrowth 100   | 1.80%          | CPI + 2.0% to 4.0% p.a.             |

Target returns are what the portfolio aims to deliver over the long term and are not guaranteed

### FUND SIZE
