INVESTMENT DESCRIPTION

The Portfolio is a Regulation 28 Shari'ah compliant asset allocation portfolio that offers investors access to local and international asset classes including equity and Shari'ah compliant cash investments. The portfolio excludes companies whose core business involves dealing in alcohol, gambling, non-halal foodstuffs or interest-bearing instruments. It adheres to the standards of the Accounting and Auditing Organisation for Islamic Financial Institutions as interpreted by the Shari'ah Supervisory Board.

The portfolio aims to outperform the benchmark over rolling three year periods, while seeking to optimally manage portfolio volatility. Interest income is stripped out of the portfolio as impermissible income on a daily basis and is paid to the SA Muslim Charitable Trust.

Asset allocation is determined using a proprietary model that measures the relative attractiveness of equities versus cash compared to its long term history. We use an objective and repeatable model driven framework that allows us to determine when to change our equity allocation. Our investment decisions are a direct result of our objective investment processes and not varying subjective opinions.

We believe superior investment performance comes from a combination of stock selection and portfolio construction. Our stock selection process seeks to systematically invest in high quality, attractively valued companies with favorable long-term growth prospects. Viewed from a portfolio construction lens, we believe that outperformance can be obtained by actively managing the portfolio's volatility via portfolio construction.

The Portfolio has exposure to Shari'ah compliant cash investments or conduits as a substitute for traditional fixed income instruments. These instruments give investors much needed exposure to non-equities, thereby allowing us to offer investors a Shari'ah compliant balanced portfolio.
