INVESTMENT UNIVERSE & STRATEGY

This actively managed portfolio provides exposure to primarily large cap, high-quality South African companies. It generally contains between 15-25 holdings and is diversified across sectors.

The investment process is fundamentally driven and applies a high-conviction, bottom-up active investment philosophy, based on the principles of quality, valuation, diversification and time. This portfolio is ideal for clients who seek growth from a traditional FTSE/JSE equity portfolio and who accept the risk of short-term market volatility. It is appropriate for the equity component of a Regulation 28 compliant portfolio.
