

FROM OLD MUTUAL SUPERFUND

Dear Member,

The beginning of 2020, particularly March, will be remembered alongside significant market downturns of the past. We all are facing market volatility and especially uncertain times, but seldom have we seen it in such extremities. We understand that these are uncertain times and that you may be needing guidance and information.

As a Fund, we want to ensure that you are well-informed, that we are there for you and that we will do whatever we can to support you along your financial journey.

While you have access to your personal Financial Adviser, who can provide you with holistic advice, you also have free and immediate access to your SuperFund Retirement Benefits Counsellor (RBC), who will be able to offer guidance and information on your retirement fund.

Should you not be familiar with the difference between a Financial Adviser and a Retirement Benefits Counsellor, [click here](#) to find out what the basic differences are, and how to get in touch with your RBC.

We would love to hear from you.

Stay safe and healthy!

Regards

The Old Mutual SuperFund
