GROWTH OBJECTIVE

TARGET RETURN
For the underlying portfolio

Target Return	Gross
Absolute Growth Portfolios	CPI + 5.20% to 7.20% p.a.

The portfolio's Gross Target Return is over the long term and is gross of capital charges and investment management fees.

For each guarantee option

Bonuses are applied to investments net of capital charges. As such, we arrive at the Net-of-Capital Charge Target Return for each guarantee option by deducting the Capital Charge for each option from the underlying portfolio's Gross Target Return.

Guarantee option Return	Capital Charge	Net-of-Capital Charge Target
Absolute Stable Growth	0.70%	CPI + 4.5% to 6.5% p.a.

Target returns are what the portfolio aims to deliver over the long term and are not guaranteed.

FUND SIZE
